Editor-in-Chief
Christopher Makowski, Ph.D.

Dr. Christopher Makowski is the Senior Vice President and Assistant Director of the Coastal Education and Research Foundation (CERF), the official publisher of the International Journal of Coastal Research (JCR). CERF-JCR is devoted to the multi-disciplinary study of aspects of coastal systems and the ecosystems that interact with those systems. CERF-JCR encourages you to visit www.cerf-jcr.org, please visit www.cerf-jcr.org.

For more information, please visit Dr. Makowski’s home page at http://cerf-jcr.org.

International Coastal Symposium (ICS)
OFFICIAL MEETING OF ICS-CERF

The International Coastal Symposium, ICS, was originally set up by Per Broman (Sweden) and Charles W. Finkl (U.S.A.) in 1983 to 1993 and was held biannually. The idea for this conference was the inspiration of the two founders, who both had a strong desire to bring people together to discuss the most current research in coastal sciences. The journal of Coastal Research, IJCRR, now published by CERF-JCR, is devoted to the multi-disciplinary study of aspects of coastal systems and the ecosystems that interact with those systems. ICS-CERF encourages you to visit www.cerf-jcr.org for more information and invites you all to be a part of CERF-JCR coastal society research.

Aims and Scope of the Journal of Coastal Research (JCR)

Journal of Coastal Research (JCR), an International Forum for the Littoral Sciences, is dedicated to all aspects of coastal research. These include geology, biology, geomorphology (physical geography), climate, littoral oceanography, hydrography, coastal hydraulics, environmental (resource) management, engineering, and remote sensing. Although each field functions effectively within its own purview, the cross-disciplinary nature of coastal studies requires familiarity with other fields as well. Hence, the scope of topics is necessarily broad in order to address the complexity of coastal biophysical and socio-economic interactions. Because of the wide range of interrelated topics, the journal invites original contributions and manuscripts dealing with theory, methodology, techniques, and field or applied topic studies on interdisciplinary coastal issues.

The journal encourages the dissemination of knowledge and understanding of the coastal zone by promoting cooperation and communication between specialists in different disciplines. Natural scientists, for example, are encouraged to collaborate with professionals in other fields to prepare contributions relating to the coastal zone that foster increased appreciation of coastal environments and processes. By means of this journal, with its scholarly and professional papers, systematic review articles, book and symposia reviews, communications and news, and special topical issues, an international forum for the development of integrated coastal research is provided.

Advertising, Editorial, and Subscription Information

Advertising and Editorial Office: All advertising and editorial correspondence should be sent to Dr. Chris Makowski, Editor-in-Chief, Journal of Coastal Research, 7570 NW 47th Avenue, Coconut Creek, FL 33073, U.S.A. PHONE: (+1) 954-899-8416. E-MAIL: cmakowski@cerf-jcr.com WEBSITE: www.cerf-jcr.org

Subscription Information: The Journal of Coastal Research is a bimonthly publication. Calendar-year (2020) print and online subscription prices for the JCR are: $115.00 for US CERF members / $125.00 for International CERF members ($95.00 for online only), and $519.00 for US institutions / $541.00 for International institutions ($437.00 for online only). Additional surface charges may apply to subscribers located outside of the USA. For additional membership and subscription forms and information, please go to www.cerf-jcr.org. To obtain a membership or subscription form by mail, please send request to Journal of Coastal Research, P.O. Box 7065, Lawrence, KS 66044. Back Issues and Special Issues of the JCR, when available, can be directly requested at: cerf-jcr@gmail.com.

Abstracting Information: The Journal of Coastal Research (JCR) is currently surveyed in: Web of Science (WoS) Core Collection / Web of Knowledge (Clarivate Analytics); Science Citation Index Expanded; SCOPUS (Elsevier); BioOne Complete; JSTOR; EBSCO; ProQuest; Charlesworth; BIOSIS Previews; Zoological Record; Biological Abstract; H.W. Wilson Company; Thomson Reuters (ISI); Cabelis Scholarly Analytics; Essential Science Indicators; Chemical Abstracts Service (CAS); Gale Group (Gale/Cengage Learning); Copyright Clearance Center, Inc. (CCC); Current Contents - Physical, Chemical & Earth Sciences; and Current Contents - Agriculture, Biology & Environmental Sciences.
TABLE OF CONTENTS

ECOSYSTEMS

**Mangrove Typology: A Proposal for Mapping based on High Spatial Resolution Orbital Remote Sensing**
- Paula Maria Moura de Almeida, Carla Bernadete Madureira Cruz, Felipe Gonçalves Amaral,
- Luiz Felipe Almeida Furtado, Gabriel dos Santos Duarte, Gabriella Ferreira da Silva,
- Rafael Silva de Barros, João Vitor Freitas Perei-ra Abrantes Marques,
- Rita Maria Cupertino Bastos, Edineuza dos Santos Rosario, Valdenira Ferreira Santos,
- Alex Alves, Filipe de Oliveira Chaves, and Mario Luiz Gomes Soares

**Domestic Effluent Contamination in Mangrove Areas: A Latitudinal Perspective in Brazil**
- Michelle Passos Arauo, Claudia Hamacher, Cássia de Oliveira Farias,
- Gustavo Calderuccio Duque Estrada, and Mário Luiz Gomes Soares

**Zooplankton at the Northern Brazilian Coast: Evaluation and Gaps**
- Alysson Antônio da Costa Leite, Arnaldo Fabricio dos Santos Queiroz,
- Leonardo Mario Siqueira Morais, Caroli-na Cardoso de Azevedo, and José Eduardo Martinelli Filho

**Transitional Waters Typology in Turkey: Melen Estuary Case Study**
- Lale Balas, Asli Numanoglu Genc, and Eray Eser

**Biological Zonation and Bedrock Strength on a High Energy Granite Shore Platform**
- Helene Burningham and Jasper Knight

**South China Sea Environment Monitoring Using Remote Sensing Techniques**
- Wanqian Deng, Xin Zhang, Jiancheng Luo, and Yu Peng

**Recovery of Beach-Foredune Vegetation after Disturbance by Storms**
- Juan B. Gallego-Fernández, José A. Morales-Sánchez, M.Luisa Martínez,
- José G. García-Franco, and Maria Zunzunegui

**Past and present utilization of mangrove resources in Eastern Africa and drivers of change**
- Amina Juma Hamza, Luciana S. Esteves, Marin Cvitanovic, and James Kairo

**Impacts of Decommissioning and Upgrading Urban Wastewater Treatment Plants on the Water Quality in a Shellfish Farming Coastal Lagoon (Ria Formosa, South Portugal)**
- José Jacob, Cátia Correia, Ana F. Torres, Gustavo Xufre, André Matos, Cristina Ferreira,
- Margarida P. Reis, San-dra Caetano, Carla S. Freitas, Ana B. Barbosa, and Alexandra Cravo

**Spatiotemporal Changes in Vegetation Frontlines on Barrier Islands in Nakdong River Estuary during the Typhoon Season**
- Min-Su Kim, Sung-Chul Jang, Sang-Hyub Lee, Han-Sam Yoon, and Junghyun Park

**Changes in the nutrient budget due to physiochemical factors in the coastal area of Jeju, Korea**

Optimization of Dust-Containing Rain Water Percolation System for Traffic Roads in Coastal Ecological Sponge Cities

Songliang Li, Rongrong Liu, and Peng Wang

An Improved Algorithm for Refinement of Overlapping Images of Marine Organisms

Kun Li, Liwei Jia, and Xiaoming Shi

Identification of Endangered Estuarine Salt Marsh Communities: Analysis of Long-Term Landsat Imagery

Carina L. Lopes, Renato Mendes, Isabel Caçador, and João M. Dias

Laboratory Study on Solute Transport Affected by Rigid Vegetation

Sha Lou, Hongzhe Liu, Ming Chen, Shuguang Liu, and Guihui Zhong

Mapping Island Ecological Vulnerability to Urbanization: A Study of Twelve Island Counties/Districts, China

Baiqing Sun, Xin Ma, Xin Bao, and Martin de Jong

Socioenvironmental Aspects Related to Mangrove Forests under the Influence of Oil Exploitation Activities in Northeastern Brazil: an Interdisciplinary Approach

Mário Luiz Gomes Soares, Elza Maria Neffa Vieira de Castro, and Júlio Augusto de Castro Pellegrini

Vibrio cholerae O139 Attached to Zooplankton: Reservoir Diversity and Distribution over an Estuarine-Coastal Gradient

Martinelli Filho, J.E., Rita R. Colwell, Arnaldo F. S. Queiroz, Irma N. G. Rivera, and Rubens M. Lopes

Coastal Ecosystems as an Ecological Membrane

M. Luisa Martínez, Rodolfo Silva, Jorge López-Portillo, Rusty A. Feagin, and Esther Martínez

Mangrove Mortality: Analyses of Natural and Anthropic Causes and their Effects on Forest Dynamics

Dielle Meire de Santana Lopes, Filipa de Oliveira Chaves, and Mônica Maria Pereira Tognella

Effects of the Increase in Vegetation Cover and Impact of Rabbits on the Geomorphology of Parabolic Dunes (Younghusband Peninsula - SA, Australia)

Martim A.B. Moulton, Patrick A. Hesp, Graziela Miot da Silva, Robert Keane, and Guilherme B. Fernandez

Analysis of Spatio-Temporal Changes in the Vegetation Cover of the Coastal Landscape of Doñana

José Carlos Muñoz-Reinoso, Rafael Villafuerte Jordán, and Macarena Tejada-Tejada

Impact of Offshore Wind Farms on Marine Ecosystems, Pelagic Species and Fishing

Vicente Negro, J. M. del Campo, J. Luengo Frades, Mario Martín – Antón, M. Dolores Esteban, José-Santos López-Gutiérrez, and Takvor Souksissian

Managing and Monitoring the Recreational Use of Coastal Protected Areas: the Case of Berlengas Nature Reserve (Portugal)

Ricardo Nogueira Mendes, Carlos Pereira da Silva, Catarina Fonseca, Alexandra Gil

Understanding Drivers of Connectivity & Resilience Under Tropical Cyclones in Coastal Ecosystems at Puerto Morelos, Mexico

Itxaso Odériz, Izchel Gómez, Yudisleyvis Ventura, Veaney Díaz, Ana Escalante, Dzoara T. Gómez, Tjeerd J. Bou-ma, and Rodolfo Silva

Littoral Benthic Communities Under Effect of Heat Wave and Upwelling Events in the Ne Baltic Sea

Tiina Paalme, Kaire Torn, Georg Martin, Ilmar Kotta, and Ülo Suursaar

Environmental Impact Assessment of Carbon Storage Using a CO₂ Bubble Model

Enhancing Estuarine Flood Risk Management: Comparative Analysis of Three Estuarine Systems

Ana Rilo, Alexandre Oliveira Tavares, Paula Freire, José Luís Zézere, and Ivan D. Haigh

Port Projects in Blue Economy: Port of Motril-Granada

Mónica Ruiz Seisedos and Pedro Fernández Carrasco

Under New Management

Marine E.G. Scherer, João Luiz Nicolodi, Monica F. Costa, Natalia R. Corriani, Rafael K. Gonçalves, Samanta C. Cristiano, Bruna Ramos, José Maurício Camargo, Vitor Alberto Souza, Letícia O. Fischer, Gabriela Sardinha, Mariana P.S. Mattos, and Alessandra Pfluetzenreuter

User’s Perceptions about Rip Currents and Their Specific Management Approaches at a Densely Occupied Urban Beach

Jacqueline S. Silva-Cavalcanti, Andressa Raphaely de Lima Silva, Jayne C. Pereira da Silva, Maria Christina Barbosa de Araújo, Mateus G. Maragotto, and Monica Ferreira da Costa

Analysis of Different Protocols for the Artificial Opening of the Laguna de Rocha Inlet

Manuel Teixeira and Sebastian Solari

Changing Port Governance Model: Port Spatial Structure and Trade Efficiency

Lulu Cao

Rip Current Hazard Analysis

Keqi Zhang, Matthew C. Zhang, Stephen B. Leatherman, and Stephen P. Leatherman

New Conception of Coastal Reservoir in Zhoushan Islands

Qianghua Ma, Yan Zhang, Hanbin Gu, Jie Wang, Shuqing Yang, and Thallak Sitharam
Study on Estimation Method of Port Container Handling Cost Based on Interval Analysis................................. 979

COASTAL EDUCATION AND RESEARCH FOUNDATION (CERF)

The International Coastal Symposium (ICS) was originally set up by the American Society of Civil Engineers (ASCE) in 1974, and is now held in different parts of the world every three years. The symposium provides a platform for coastal engineers, scientists, and policymakers to discuss the latest research and developments in coastal engineering and management.

The symposium typically features keynote speeches, technical sessions, workshops, and exhibitions. It attracts attendees from around the world, including scientists, engineers, policymakers, and industry representatives. The symposium is a great opportunity for networking and collaboration.

For more information, visit the official website of the International Coastal Symposium (ICS) or contact the organizing committee directly.
