Research Papers

Foodborne *Klebsiella pneumoniae*: Virulence Potential, Antibiotic Resistance, and Risks to Food Safety
Sri Harminda Pahm Hartanto, Man Ling Chau,* Tse Hsien Koh, Min Yap, Tseng Yi, Delphine Yan Hong Cao, Ramona Alikiiteaga Gutierrez, and Lee Ching Ng .......................................................... 1096

Parasitological Contamination of Vegetables Sold in Tunisian Retail Markets with Helminth Eggs and Protozoan Cysts  Selim M’rad,* Raja Chaabane-Banaoues, Ibtissem Lahmar, Hamza Oumaima, Habib Mezhoud, Hamouda Babba, and Myriam Oudni-M’rad .................................................. 1104

Characterization of Extended-Spectrum β-Lactamase–Producing *Escherichia coli* Isolated from Fresh Produce and Agricultural Environments in Korea Min-Hyeok Cha, Jae-Gee Ryu, Young-Min Chi, and Gun-Jo Woo* .............................................................. 1115

Thermal Resistance of Foodborne Pathogens and *Enterococcus faecium* NRRL B-2354 on Inoculated Pistachios  Mahta Moussavi, John C. Freila, Ian M. Hildebrandt, Bradley P. Marks, and Linda J. Harris* .................. 1125

Survey of the U.S. Broiler Industry Regarding Pre- and Postharvest Interventions Targeted To Mitigate Campylobacter Contamination on Broiler Chicken Products  Haejin Hwang and Randall S. Singer* ............................................................................. 1137

Comparison of Detection Limits for Allergenic Foods between Total Adenylate (ATP+ADP+AMP) Hygiene Monitoring Test and Several Hygiene Monitoring Approaches  Wataru Saito, Kazuki Shiga, and Mikio Bakke* ................................................................. 1155

An Observational Study of Thermometer Use by Consumers When Preparing Ground Turkey Patties  Minh Duong, Ellen Thomas Shumaker,* Sheryl C. Cates, Lisa Shelley, Lydia Goodson, Christopher Bernstein, Aaron Lavallee, Margaret Kirchner, Rebecca Goulter, Lee-Ann Jaykus, and Benjamin Chapman ........................................ 1167

Identification of Chicken-Derived Ingredients as Adulterants Using Loop-Mediated Isothermal Amplification  Feng Wang, Xiaofeng Wu, Deshun Xu,* Liping Chen, and Lei Ji ......................................................... 1175

Exposure Assessment of Multiple Mycotoxins in Black and White Sesame Seeds Consumed in Thailand Maythawe Pongpraket, Amnart Poapolathep, Kannika Wongpanit, Phanwimol Tanhan, Mario Giorgi, Zhaowei Zhang, Peiwu Li, and Saranya Poapolathep* ................................................................. 1198

Toward a Better Understanding of Listeriosis Risk among Older Adults in the United States: Characterizing Dietary Patterns and the Sociodemographic and Economic Attributes of Consumers with These Patterns Edwina A. Wambogo, Anna M. Vaudin, Alanna J. Moshfegh, Judith H. Spungen, Jane M. Van Doren, and Nadine R. Sahyoun* .................................................................................................................. 1208

Fate of *Salmonella enterica* and Enterohemorrhagic *Escherichia coli* on Vegetable Seeds Contaminated by Direct Contact with Artificially Inoculated Soil during Germination  Yue Cui, Da Liu, and Jinru Chen* ................................................................. 1218

A Survey of 61 Veterinary Drug Residues in Commercial Liquid Milk Products in China  Runjia Shi, Zhongna Yu, Wei Wu, Harvey Ho, Jun Wang, Yutao Wang, and Rongwei Han* ................................. 1227

Analysis of the Relationship of Microbial Contamination with Temperature and Cleaning Frequency and Method of Domestic Refrigerators in Japan  Miho Mori,* Yoshikazu Sakagami, Megumi Tanaka, Ryo Inoue, and Toru Jojima......................................................... 1234

Effect of Drying Temperatures and Exposure Times on *Aspergillus flavus* Growth and Aflatoxin Production on Artificially Inoculated Hazelnuts  Silvia Valente, Giovanna Roberta Meloni, Simona Prencipe, Nicola Spigolon, Marco Somenzi, Mauro Fontana, Maria Lodovica Gallino, and Davide Spadaro* ...................................................... 1241

Allergen Removal and Transfer with Wiping and Cleaning Methods Used in Retail and Food Service Establishments  Binaifer Bedford, Girvin Liggans, Laurie Williams, and Lauren Jackson* ................................. 1248

Rosemary and Tea Tree Essential Oils Exert Antibiofilm Activities In Vitro against Staphylococcus aureus and Escherichia coli  Ting Liu, Jingfan Wang, Xiaoman Gong, Xiaoxia Wu, Liu Liu,* and Fumin Chi ................................. 1261

Research Notes

Performance of Chromogenic Agar Media for Isolation of Shiga Toxin–Producing Escherichia coli from Ground Beef  Gentry L. Lewis, Natalia Cernicchiaro, and Rodney A. Moxley* .............................................................. 1149

Survival and Histamine Production by Histamine-Forming Bacteria Exposed to Low Doses of Gamma Irradiation  P. Ramakrishna Reddy, Sanath H. Kumar, P. Layana, and Binaya Bhusha Nayak* .............................................................. 1163

Review

Prevalence of Salmonella and Campylobacter spp. in Alternative and Conventionally Produced Chicken in the United States: A Systematic Review and Meta-Analysis  Chase E. Golden and Abhinav Mishra* ................................. 1181

General Interest

Environmental Drivers for Persistence of Escherichia coli and Salmonella in Manure-Amended Soils: A Meta-Analysis  Dao T. Q. Tran, Mark I. Bradbury, Floris F. Van Ogtrop, Hayriye Bozkurt,* Brian J. Jones, and Robyn McConchie .............................................................. 1268
